

You don't have to suffer with unbearable chronic pain or headaches

We provide the latest innovations in comprehensive pain treatment at Western Reserve Hospital

*When chronic pain sets in, **your life shrinks to fit your pain.** Your health, work and relationships suffer. You become less active. Often, **you can't sleep or suffer from depression.** Living with chronic pain is hard, and the anxiety, stress and anger that accompany it can make the pain even worse. **Our staff of specialists at the Center for Pain Medicine at Western Reserve Hospital can help you conquer your pain** with sophisticated new treatments and compassionate, professional care.*

Tim Sable, MD, is board-certified in anesthesiology and pain medicine. He has served as chief pain medicine fellow (2009-2010) at Cleveland Clinic. He held his anesthesiology residency at Cleveland Clinic (2006-2009) and completed a medicine internship at

Akron City Hospital (2005-2006). As a graduate of the University of Akron's BSMD program, Dr. Sable earned his doctorate of medicine from Northeastern Ohio Universities College of Medicine (now NEOMED) (2005). His primary focus is on interventional and multi-disciplinary pain management for a variety of painful conditions. He lives in Bath, Ohio, with his wife and two children.

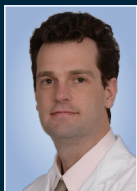

Dmitri Souza, MD, PhD, earned his medical degree in 1987. He is board-certified in pain medicine, anesthesiology and internal medicine, and has trained at Yale University School of Medicine, Johns Hopkins and Cleveland Clinic. He has authored numerous

publications, including the book, "Chronic Pain Management for the Hospitalized Patient." He is a clinical professor at Ohio University and serves as a faculty and a board director at National Physician Symposia, where he teaches pain medicine.

His clinical expertise includes the advanced management of widespread pain, headaches, back pain, joint pain, abdominal pain and persistent pain in the elderly.

CENTER FOR PAIN MEDICINE

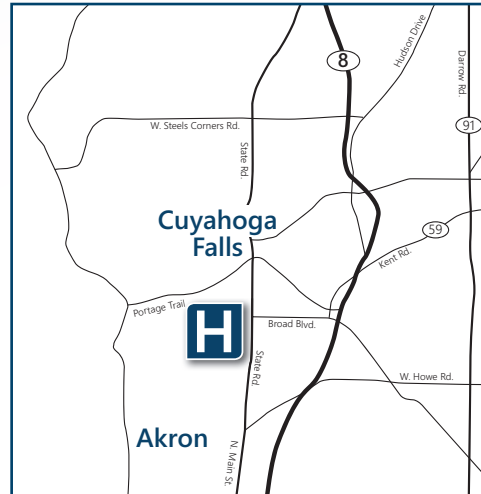

at Western Reserve Hospital

We provide 100% patient-centered pain treatment. Our patient-driven care includes:

- Leadership from nationally-recognized authority
- Medical management of chronic pain, with the assistance of a full-time pharmacist to monitor potential drug interactions
- Regenerative Pain Medicine: Platelet-Rich Plasma (PRP), a new treatment that involves drawing a patient's blood, concentrating the platelets using a specialized centrifuge and injecting it directly into the location of the pain to promote quick, natural healing
- Comprehensive range of the latest minimally invasive pain procedures by our board-certified, fellowship-trained physicians
- Integrated behavioral health team to provide a comprehensive approach to the treatment of pain
- Full-service physical and occupational therapy
- On-site chiropractor and pharmacy
- Convenient hours
- Free valet parking
- Convenient Cuyahoga Falls location

To schedule a consultation or receive more information about any of our services, please contact us at (330) 971-7246 or visit us online at westernreservehospital.org
