

Graduate Medical Education Fast Facts

Preparing the physicians of tomorrow is a vitally important undertaking, and Western Reserve Hospital is proud to help mold and shape the future of medicine in the residents who are educated within its GME program.

The physicians of Western Reserve Hospital are at the forefront of leading change in the healthcare industry. As Northeast Ohio's only physician-owned, locally led hospital, the staff and leaders of Western Reserve Hospital remain firmly committed to improving the patient experience and improving the delivery of the highest quality healthcare services available.

For residents, this means that they receive training from seasoned physicians who understand both the management of a full-service hospital as well as patient care at the ground level. This allows for a unique and comprehensive perspective on the practice of healthcare, which is then used to equip new physicians with the tools and knowledge they need to be successful in any placement.

Graduate Medical Education Fast Facts

Western Reserve Hospital is Northeast Ohio's only physician-owned, for-profit, full service hospital. The hospital is a majority physician-owned joint venture of Western Reserve Hospital Partners, which represents a collaboration of more 300 physicians, including primary care physicians, surgeons and specialists. The physicians of Western Reserve Hospital are at the forefront of leading change in the healthcare industry with a goal that is simple: that excellent patient-centered care can be delivered in an environment ultimately managed by physicians.

As a committed teaching facility, Western Reserve Hospital is an ACGME accredited sponsoring institution. We have received ACGME accreditation for Orthopedic Surgery, Otolaryngology/Facial Plastic Surgery, Family Medicine, Internal Medicine, and General Surgery. We are proud to offer trainees a valuable learning experience. Some of our unique post-graduate training benefits include:

- Physician-owned and led
- Patient-centered care
- Service excellence focused
- Outstanding clinical rotations (trainees are first assist on most)
- Generous education allowance
- Collegiality and family-like environment
- Pagers and lockers provided
- Resident Lounge and Fitness Center

Pharmacy

DIDACTICS: COMPLEMENTING YOUR CLINICAL EXPERIENCE

The goal of our didactic program is to complement your clinical experience by increasing medical knowledge and demonstrating clinical application. Each program hosts its own specialty-oriented conferences such as Morning Report, Board Review, and Journal Club. In addition, the Western Reserve Hospital Graduate Medical Education Department offers a broad house-wide curriculum as part of the educational conference series.

- Clinical Foundations Series – the basic topics needed from the very first day.
- Case Report Conferences
- Bi-Monthly Cancer Conferences
- Monthly Medicine M & M
- Monthly Surgical M & M
- Monthly Orthopedics Fracture Conference
- Quarterly ResidentOne half-day educational conference on Quality, Practice Management, Ethics and Wellness
- Simulation Sessions – hands-on practice for the most common procedural skills
